D3
Data Discovery Distillation

D3 Digitization, Data Processing & Data Discovery

anacomp®
we make data visible

Artificial Intelligence (AI)   Machine Learning (ML)   Optical Character Recognition (OCR)
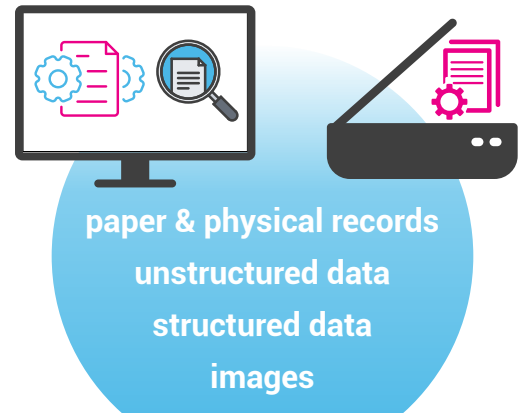

200% ROI

Key Features

Automated Metadata

Dashboard Visualization

Chain of Custody Tracking

Quality Control/Validation

Federated Search

Risk Filters & Workflows

APIs to Other Solutions

Project Management

High-Speed Digital Transformation Solutions Deliver Quality Control & Validation

Scanning & Digitization

Records Processing

Patient Record Onboarding

Data Discovery & Tagging

Data Inventory & Classification

Intelligent Document Processing

Sensitive Data Risk Mitigation

paper & physical records

unstructured data

structured data

D3 Supports Data-Based Decisions & Information Requests

Accurate, semi-automated AI/ML/OCR digitization and Intelligent Document Processing (IDP) solutions for:

> **Cloud & Data Migration Projects**
> **Zero Trust Data Tagging & Classification**
> **Electronic Health Record (EHR) Systems Onboarding**
> **Indexing & Extraction for Data Analytics & Research**
> **Mergers & Acquisitions Data Migrations**
> **Claims Processing & Benefits Delivery**
> **Human Capital Management**
> **Data Subject Access Requests (DSARs)**

Anacomp Is a Leader in Data Innovation Serving Fortune 500 Companies & 120 Federal Agencies for Over 50 Years

● **Scale, Speed & Accuracy** - We process millions of records and petabytes of data with confidence scoring. Extraction from multiple formats and templates. **Metadata accuracy up to 99.995%.**

● **Security, Certifications & Project Management** - Our secure facility has Authority to Operate (ATO) for scanning of federal records containing sensitive data. Our professional staff have decades of experience with certifications in Lean Six Sigma, ECM, BPM, and partner technologies including cloud platforms.

Solutions for Enterprise Top Data Challenges

anacomp®
we make data visible
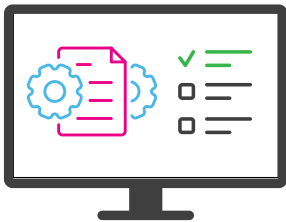

Digitization & Classification **AI/ML/OCR Data Processing Automation**

Zero Trust Data Indexing & Tagging **Sensitive Data Processing**

Affordable Digitization with Quality Control

D3 meets budget and digital transformation challenges with human-in-the-loop AI/ML/OCR data processing:

Data is only an asset if it's accurate, secure, and accessible

Project Analysis

- ✓ Lean Six Sigma methodologies that encompass process analysis & process improvement recommendations
- ✓ Workflow analysis & identify cost savings

Data Ingestion

- ✓ OCR scanning of physical files & forms with metadata assignment, chain of custody tracking, and quality control
- ✓ Locate & identify over 950+ file types: pdf, images, text, Microsoft Modern Workplace
- ✓ All data stores: cloud, hybrid, on-premises

Data Inventory

- ✓ Unsupervised crawl using ML, natural language processing & pattern matching
- ✓ Automate enrichment with metadata
- ✓ Tag risky files & identify PII
- ✓ Federated search & tag for remediation

Workflow & Monitor

- ✓ Tag, assign & export with user controls
- ✓ Data extraction & APIs to other solutions
- ✓ Monitor & setup ongoing user-defined alerts

Experts in Processing Sensitive Data

Digitize Bulk Records with Classification

D3 offers AI OCR scanning and digitization capability in weeks not months at a secure facility with security clearance, chain of custody tracking, and quality control.

Patient Record Onboarding for Electronic Health Record (EHR) Systems

Digitize and ingest patient records into EHR Systems using intelligent document processing (IDP) to automate manual processes and reduce costs.

Intelligent Document Processing (IDP), Indexing, Metadata Tagging & Data Extraction

Use AI/ML/OCR IDP data automation to bulk process data for claims, benefits, analytics, research, zero trust, and other projects. Ingest, tag, process, extract, and categorize unstructured and structured data.

Regulatory Compliance for Data Privacy

Save time locating and mitigating sensitive data with D3 automated filters and instant federated search with content-level drill down and control on all data stores.

Cloud & Data Migrations to NARA-Approved Storage

D3's pattern matching and similar-file filtering plus search and user controls enable removal of ROT (Redundant, Obsolete, Trivial) files for retention schedule, deletion, and automated declassification.
